CHAIRMAN'S ADDRESS

I am pleased to report that your Company has delivered robust performances on both financial and operational parameters.

A significant improvement in the performance of your company was witnessed during the financial year 2017-18. Net Profit on a standalone basis was boosted by 32.73% as compare to the previous year. Consolidated profit of the Company increased by 39.21% to ₹ 6,097.30 lakhs.

The consolidated revenue from operations of the Company for the year ended March 31, 2018 grew by 49.64% to ₹ 1,34,581.26 lakhs.

Your company continues to follow highest standards of corporate governance and considers it as more of an ethical requisite than a regulatory necessity. It is a matter of great pride that our success over the years has come without ever compromising on integrity or environmental and social obligations.

Globally, the economy picked up on the cyclical recovery that started in late 2016 and gathered pace to record a growth of 3.7% in 2017. More than 120 countries registered a pickup in growth in year-on-year basis. Global trade volumes also increased 4.7% in 2017. The IMF expects the global economy to grow at 3.9 % in 2018 and 2019. Although, economic growth in India dragged under the impact of demonetisation and the rollout of the Goods and Services Tax, it picked up from the third quarter onwards. The Indian economy is projected to have grown at 6.6 % in FY 2017-18.

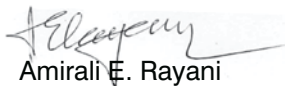

During the year Indian economy faced headwinds, compounding the impact on businesses. The Goods & Services Tax (GST), the long-debated and often delayed tax reform was finally introduced on July 1, 2017. This is the single biggest structuralre form in the country that pushes for creation of a unified common market laying aside the inefficiency created by different taxes. The Company worked closely with its partners along its entire supply chain to transition its operations to the new tax regime efficiently. This was not without the initial hiccups, as there were challenges around clarity of rules and processes.

Despite these challenges, Panama continued to maintain strong growth. This performance was driven by continuous improvement in the efficiency of operations at all locations and introduction of new products.

Your company's exports have grew despite market challenges, increased raw material prices and pricing pressure due to a positive economic outlook and a strong demand for its products.

Looking forward to a better tomorrow, I would like to thank all my colleagues for their dedication, innovation and hard work,I would like to place on record my sincere appreciation to the Board of Directors for their guidance and express my gratitude to all our stakeholders for their continuing faith in the company.

With best wishes

RESOLVED FURTHER THAT the Board of Directors of the Company be and is hereby authorised to do all acts and take all such steps as may be necessary, proper or expedient to give effect to this resolution.

Notes:

1. **A MEMBER ENTITLED TO ATTEND AND VOTE AT THE MEETING IS ENTITLED TO APPOINT A PROXY TO ATTEND AND VOTE INSTEAD OF HIM AND A PROXY NEED NOT BE A MEMBER OF THE COMPANY.** Proxies, in order to be effective, must be received at the Company's Registered Office not less than 48 hours before the Meeting. Proxies submitted on behalf of companies, societies, partnership firms, etc. must be supported by appropriate resolution / authority, as applicable, issued on behalf of the nominating organization. Members are requested to note that a person can act as a proxy on behalf of members not exceeding 50 and holding in the

aggregate not more than 10% of the total share capital of the Company carrying voting rights. In case a proxy is proposed to be appointed by a Member holding more than 10% of the total share capital of the Company carrying voting rights, then such proxy shall not act as a proxy for any other person or shareholder.

2. **Corporate Members:** Corporate Members intending to send their authorised representatives are requested to send a duly certified copy of the Board Resolution authorizing the representatives to attend and vote at the Annual General Meeting.
3. A Statement pursuant to Section 102 (1) of the Companies Act, 2013, relating to the Special Business to be transacted at the Meeting is annexed hereto.
4. Members/Proxies should bring the enclosed Attendance Slip duly filled in, for attending the Annual General Meeting, along with their copy of the Annual Report. Copies of the Annual Report will not be distributed at the Meeting.
5. The Register of Members and Share Transfer Books of the Company will remain closed from August 17, 2018 to August 20, 2018 (both days inclusive).

Payment of dividend as recommended by the Board of Directors, if declared at the Annual General Meeting will be payable to those Shareholders holding shares in electronic form as per the beneficiary position downloaded from the Depositories i.e. National Securities Depository Limited (NSDL) and Central Depository Services Limited (CDSL) as at the close of business hours on August 16, 2018 and to those Members holding shares in physical form, after giving effect to valid transfers in respect of transfer requests lodged with the Company as at close of business hours August 16, 2018. Dividend will be paid within two weeks from the date of declaration of dividend.

6. To avoid loss of dividend warrants in transit and undue delay in receipt of dividend warrants, the Company provides the facility to the Members for remittance of dividend directly in their bank accounts through electronic means. The facility is available at all bank branches which have registered themselves as participating banks with National Payment Corporation of India and have joined the Core Banking System. Members holding shares in physical form and desirous of availing this facility are requested to provide their latest bank account details (Core Banking Solutions Enabled Account Number, 9 digit MICR and 11 digit IFS Code), along with their Folio Number, to the Company's Share Registrar and Transfer Agents. Members holding shares in electronic form are requested to provide the details to their respective Depository Participants.
7. Members holding shares in physical form are requested to advise any change of address / mandate / bank details immediately to the Company's Share Registrar and Transfer Agents (M/s Bigshare Services Pvt. Ltd). Members holding shares in electronic form must send the advice about change in address mandate / bank details to their respective Depository Participant only and not to the Company or the Company's Share Registrar and Transfer Agents.
8. Members holding shares in electronic form are hereby informed that bank particulars registered against their respective depository accounts will be used by the Company for payment of dividend. The Company or its Registrar cannot act on any request received directly from the Members holding shares in electronic form for any change of bank particulars or bank mandates. Such changes are to be advised only to the Depository Participant of the Members.
9. Members holding shares in single name and physical form are advised to make nomination in respect of their shareholding in the Company. The nomination form can be downloaded from the Company's website, www.panamapetro.com
10. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in the securities market. Members holding shares in electronic form are, therefore, requested to submit their PAN details to their respective Depository Participants. Members holding shares in physical form are requested to submit their PAN details to the Share Registrar and Transfer Agents.
11. Members holding shares in physical form are requested to consider converting their holdings to dematerialized form to eliminate risks associated with physical shares and for ease in portfolio management. Members can contact the Company's Share Registrar and Transfer Agents for assistance in this regard.
12. All documents referred to in the Notice are open for inspection at the Registered Office of the Company on all working days except Saturdays, Sundays and Public Holidays between 11.00 A.M. and 1.00 P.M. up to the date of the Annual General Meeting. The aforesaid documents will be also available for inspection by members at the Meeting.
13. Members desirous of obtaining any information as regards to the accounts and operations of the Company are requested to write at least one week before the meeting so that the same could be complied in advance.
14. Members are hereby informed that the Company is required to transfer any money lying in the Unpaid Dividend Account, which remains unpaid or unclaimed for a period of seven years from the date of such transfer to the Unpaid Dividend Account, to the credit of the Investor Education and Protection Fund ('the Fund') established by the Central Government. Members are also requested to note that, pursuant to the provisions of Section 124 of

the Act read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 (as amended) ('IEPF Rules'), the Company is also obliged to transfer all shares on which dividend has not been paid or claimed for seven consecutive years or more to the Demat Account of the IEPF Authority notified by the Ministry of Corporate Affairs ('IEPF Demat Account').

As per the above provisions, all unclaimed dividend up to the financial year ended March 31, 2010 has been transferred by the Company to the Fund. Shares in respect of which dividend remained unclaimed for seven consecutive years or more have also been transferred to the IEPF Demat Account. Members who have not yet encashed their dividend warrant(s) for the financial year ended March 31, 2011 and for any subsequent financial year, are requested to make their claims to the Company without any delay, to avoid transfer of their dividend/shares to the Fund/ IEPF Demat Account.

15. Electronic copy of the Annual Report for 2017-18 is being sent to all Members whose email addresses are registered with the Company/ Depository Participants for communication purposes, unless any Member has requested for a hard copy of the same. For Members who have not registered their email addresses, physical copies of the Annual Report for 2017-18 are being sent in the permitted mode.
16. **To support the "Green Initiative", Members who have not registered their e-mail addresses so far, are requested to register their e-mail address for receiving all communication including Annual Report, Notices, Circulars, etc. from the Company electronically.**
17. In terms of and in compliance with the provisions of Section 108 of the Companies Act, 2013, read with Rule 20 of the Companies (Management and Administration) Rules, 2014 as amended by the Companies (Management and Administration) Amendment Rules, 2015, and Regulation 44 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is pleased to offer remote e-voting facility as an alternate to all its Members to enable them to cast their vote electronically instead of casting the vote at the Meeting. The Members who have cast their votes by remote e-voting may participate in the Meeting even after exercising their right to vote through remote e-voting but shall not be allowed to cast vote again at the Meeting. For this purpose, the Company has entered into an agreement with CDSL for facilitating e-voting to enable the Shareholders to cast their votes electronically. The Company is also providing facility for voting by Ballot at the Annual General Meeting apart from providing remote e-voting facility for all those members who are present at the general meeting but have not cast their votes by availing the remote e-voting facility.
18. The remote e-voting facility shall be opened from, Friday, August 17, 2018 at 9.00 A.M. to Sunday, August 19, 2018 till 5.00 P.M., both days inclusive. The remote e-voting facility shall not be allowed beyond 5.00 P.M., on August 19, 2018. During the period when facility for remote e-voting is provided, the members of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date/entitlement date, may opt for remote e-voting. Provided that once the vote on a resolution is cast by the member, he shall not be allowed to change it subsequently or cast the vote again.
19. The Company has fixed Monday, August 13, 2018, as the cut off date for identifying the Shareholders for determining the eligibility to vote by electronic means or in the Meeting by Ballot. Instructions for exercising voting rights by remote e-voting are attached herewith and form part of this Notice. A person whose name is recorded in the Register of Members or in the Register of Beneficial Owners maintained by the depositories as on the cut-off/ entitlement date only shall be entitled to avail the facility of remote e-voting as well as voting at the Annual General Meeting.
20. Any person who becomes a member of the Company after the dispatch of the Notice of the Meeting and holding shares as on the cut-off date i.e, August 13, 2018, may obtain the User ID and Password by sending an email request to cs@panamapetro.com. Members may also send a request to Ms. Gayatri Sharma, Company Secretary, by writing to her at, 401, Aza House, 24 Turner Road, Bandra (w), Mumbai, 400050.
21. The Voting Rights will be reckoned on the paid-up value of shares registered in the name of shareholders on Monday, August 13, 2018, the cut-off date/entitlement date for identifying the Shareholders for determining the eligibility to vote by electronic means or at the Meeting by Ballot.
22. The Notice of the Meeting is being placed on the website of the Company viz., www.panamapetro.com and on the website of CDSL viz., www.cdslindia.com.
23. Mr. Milind Nirkhe, Company Secretary in Whole Time Practice, (CP No.2312) has been appointed as a Scrutinizer for conducting the voting by Ballot at the Meeting and remote e-voting process in a fair and transparent manner.
24. The results declared alongwith the report of the Scrutinizer shall be placed on the website of the Company at www.panamapetro.com and on the website of CDSL at www.cdslindia.com, immediately after the results are declared by the Chairman.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The management of Panama Petrochem Ltd. presents the analysis of the Company for the year ended on March 31, 2018 and its outlook for the future. This outlook is based on assessment of the current business environment. It may vary due to future economic and other developments both in India and abroad.

This management discussion and analysis ("MD&A") of Panama Petrochem Ltd. for the year ended on March 31, 2018 contains financial highlights but does not contain the complete financial statements of the Company. It should be read in conjunction with the Company's audited financial statements for the year ended on March 31, 2018.

GLOBAL ECONOMY

The global cyclical recovery that started in late 2016 gathered pace in 2017. The global economy is estimated to have grown at 3.7% in 2017 as per International Monetary Fund ('IMF'), with more than 120 countries registering a pickup in growth in year-on-year terms.

A noticeable pickup in investment activity in advanced economies and the impressive performance of manufacturing sector in Asia accelerated the global trade. As against the growth of 2.5% in 2016, global trade volumes increased 4.7 % in 2017.

Although the world economy saw good growth, political discourse leaned towards trade protectionism. There has been rising speculation around rebalancing of trade surpluses. Significant announcements were made by major world economies in the last quarter of FY 2017-18, increasing trade barriers to protect their domestic industries.

INDIAN ECONOMY

FY 2017-18 marked a significant economic measure by the government: The Goods and Services Tax (GST) was implemented from July, 2017 as the nation moved to 'one nation-one tax'. The Indian economy continued to grow strongly, as the economy recovered in the 2nd half post stabilisation of the GST regime. Gross Domestic Product growth rate in FY 2017-18 was 6.7%, supported by consumption growth and government spending. With improving investments, there are signs that a recovery is underway. Industrial activity has rebounded with strong industrial production growth, led by a rise in consumption, manufacturing and electricity generation.

Moody's upgraded India's sovereign credit rating from 'Baa3' to 'Baa2' and also updated outlook from stable to positive. Government's efforts to create a unified nationwide market by implementing GST, improve monetary policy framework and transform Indian economy to a more formal economy through Aadhaar-linked biometric accounts and the Direct Benefit Transfer (DBT) system, yielded India its first rating upgrade after 14 years.

INDUSTRY OVERVIEW

Crude oil price increased during the year, with markets re-balancing amid declining inventories. Production restraint by OPEC and some Non-OPEC countries helped restrict supply growth in the firm demand environment, leading to a drawdown in crude and product inventory levels in the OECD countries.

Crude oil prices touched near 3-year high in January, 2018 with healthy demand growth projection, higher compliance to OPEC led production cut and geo-political concerns. Average naphtha prices in Asia gained, tracking strengthening of crude prices and healthy demand.

Higher crude oil production from North America as well as spare capacity available from OPEC/non-OPEC countries participating in the production curtailment agreement is expected to help meet demand growth and limit sharp increase in oil price.

BUSINESS OVERVIEW

Established in 1982, Panama Petrochem Ltd., today is one of the India's leading manufacturers and exporters for various kinds of Petroleum specialties. Company's diverse range of products includes Mineral Oils, Liquid Paraffins, Transformer Oils, Petroleum Jellies, Ink Oils, and other Petroleum Specialty Products.

MANUFACTURING FACILITIES

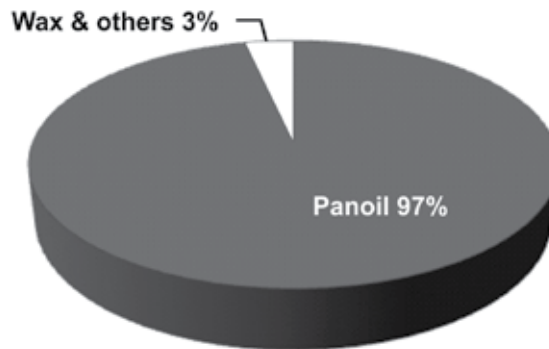

The Company has adequate manufacturing capacity to cater the domestic as well as International requirements. Its four manufacturing units, all located in western India, namely in Ankleshwar (Gujarat), Daman (Union Territory), Taloja (Raigadh, Maharashtra) and Dahej (Bharuch, Gujarat). The Company's products are exported to more than 40 countries globally. The Company has the certification of being a Star Export House. The Company has a fully equipped state-of-the-art Research and Development Center at its Ankleshwar unit where it formulates new and value-added products. The Company manufactures more than 80 product variants used across 6-7 broad industry segments. The Company is accredited as ISO 9001:2008 certification by Benchmark.

The Company develops customized products as per client specification in the field of petroleum and feeds to various industries like Printing Ink, Resin, Cosmetics, Rubber products, Pharmaceuticals, Engineering, and Chemicals including Petro Chemicals.

Over the years, the Company has formed strong relations with its clientele, comprising of leading names across sectors. Its ability to offer customized products complying with global quality standards has enabled to generate not only repeat business from existing clients, but also general referral business from new clients.

PRODUCT WISE SALES BREAK UP FOR THE FINANCIAL YEAR 2017-18

Sales Break up 2017-18

Panoil is the key product of the Company, it has various variants depending upon its end use application.

FUTURE OUTLOOK

The financial year 2018-19 could well be the period that witnesses a strong and sustained economic upsurge. Improvement in growth conditions in the second half of FY 2017-18 indicates normalisation of the supply chain, which was disrupted on account of demonetisation and GST implementation.

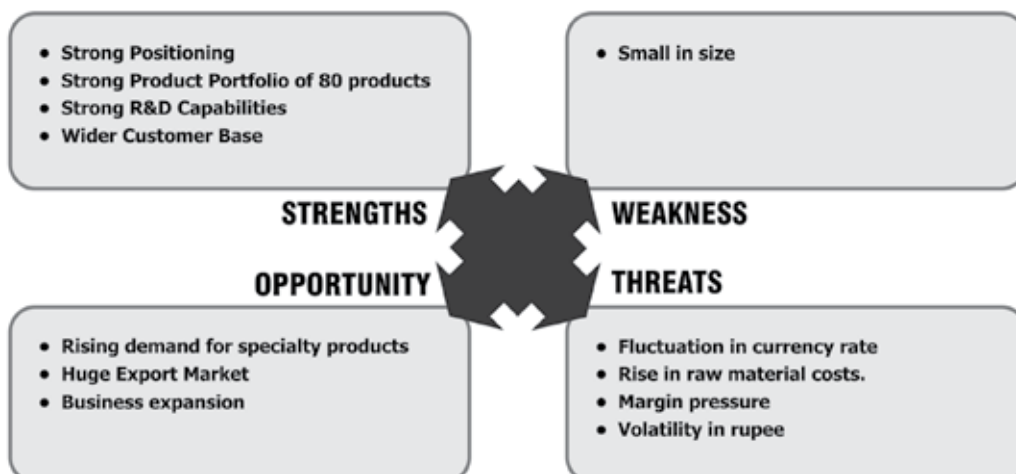

The massive bank recapitalisation programme coupled with the progress seen on resolving the initial set of insolvency cases is expected to augment the banking sector’s capability to lend credit to the industry. This will boost the capex revival cycle in the industry as well.

The aggregate demand of all the key segments in the petrochemical industry is likely to regain a sharp positive trajectory, with key players aiming to ramp up scale.

The Company is planning to expand its operations to withstand against the negative market forces. The Company is hopeful to override the adverse effects of the price fluctuations in the petroleum industry by resorting to bulk purchases and cost control measures.

It is management’s view that the Company will continue to strengthen its financial position with stable production volumes and positive improvements in Commodity prices.

SWOT PROFILE

OPPORTUNITIES:

The recent positive signs emerging from the western world, augur well for our international business more particularly for some of the specialized products strategically earmarked for export markets.

With increasing industrialization, focus on infrastructural development and outsourcing boom, the demand for the petroleum products manufactured by the Company is likely to further improve in the coming years. Demand for intermediates, specialty chemicals etc. will increase the demand for petroleum specialty products. This will result in a significant growth in this industry. Growing demand from the rubber industry, personal care industry, and power sector will lead to a strong demand in petroleum products. The relationship established by the company with the clientele would help in further growth in its business. Moreover, the company has been increasing its presence in the export markets like USA, Africa, Europe and Asia.

THREATS:

Changes in Government policies, especially regarding import of Base Oil will have an adverse impact on the performance of the Company. However, considering the multifarious purposes for which it is used and the domestic supplies are not adequate to meet the domestic demand, the possibilities for such adverse changes in Government policies appear to be remote.

RISKS AND CONCERNS**• Strategic and Commercial Risks**

Company's financial performance is subject to the fluctuating prices of crude oil and downstream petroleum products. Prices of products are affected by supply and demand, both globally and regionally. Factors that influence fluctuations in crude prices and crude availability include operational issues, natural disasters, political instability, economic conditions and Government pricing policy of petroleum products among others.

• Environmental Risks

All phases of the oil business present environmental risks and hazards. As a result, they are subject to environmental regulation pursuant to a complex blend of federal, provincial, and municipal laws and regulations. The Company is in compliance with current applicable environmental rules and regulations.

• Financial Risks

Financial risks associated with the petroleum industry include fluctuation in commodity prices, interest rates, and currency exchange rates and profitability of the Company depends on the prices and availability of the base oils. Foreign exchange risk is tracked and managed within the risk management framework. The interest rate risk is managed by the Company through various financial instruments available to convert floating rate liabilities into fixed rate liabilities or vice-versa.

• Operational Risks

Operational risks include competitive environmental factors, reservoir performance uncertainties and dependence upon third parties for commodity transportation & processing and a complex regulatory environment. The Company closely follows the applicable government regulations. The Company carries insurance coverage to protect itself against those potential losses that could be economically insured.

• Cyber Security Risks

The use of information and telecommunication technologies is increasing, resulting in greater security threats to its digital infrastructure. A breach of its digital security or disruptions to its digital infrastructure, due to intentional actions, such as cyber-attacks or human error could lead to serious impacts to its businesses. These impacts may include injury to staff, loss of control, impact on continuity or damage to assets and services, harm to the environment, the loss of sensitive data or information, legal and regulatory breaches and reputational damage. But the Company continues to strengthen its responses to cyber security threats through proactive and reactive risk mitigations.

• Safety Risks

Safety is an ever-evolving journey. The company's manufacturing facilities have adopted Safety Management System. Regular audits are conducted to assess the on-ground implementation of various processes prescribed by Safety Management System. Critical safety incidents are studied by the senior leadership.

PERFORMANCE

The Company's performance improved significantly, Net Profit on a standalone basis increased by 32.73 % to ₹ 5,435.98 lakhs as compared to the previous year. Revenue from Operations on a standalone basis grew by 50.35% to ₹ 1,18,967.45 lakhs.

Earning per share on a standalone basis (EPS) increased to ₹ 8.99 as compared to ₹ 6.77 in the previous year.

Earnings before Interest, Depreciation, and Tax & Amortization on a standalone basis increased by 35.73% to ₹ 9,848.43 lakhs.

By a combination of a better product mix helped by specialty products and continual improvement in the efficiency of

operations at all locations, the Company has managed to keep its operating margins healthy for all the four quarters and has achieved an improvement in the EBIDTA levels.

HUMAN RESOURCE / INDUSTRIAL RELATIONS

The Company recognizes the importance and contribution of its human resources for its growth & development and values their talent, integrity and dedication. The Company offers a highly entrepreneurial culture with a team based approach that we believe encourages growth and motivates its employees. The Company has been successful in attracting and retaining key professionals and intends to continue to seek fresh talent to further enhance and grow its business.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company has in place, adequate internal control systems and procedures covering all the financial and operating functions. These have been designed to provide adequate assurance to the management regarding compliance with the accounting standards by maintenance of appropriate accounting records, monitoring the economy and efficiency of operations, protecting the assets of the Company from losses and ensuring the reliability of financial and operational information through proper compliance with the statutory enactments and its rules and regulations.

The Company has an effective and adequate internal audit and control system. The Internal audits are conducted by firm of Chartered Accountants, ably supported by an internal team staffed with qualified and experienced people. All operational activities are subject to internal audits at frequent intervals. The existing audit and inspection procedures are reviewed periodically to enhance their effectiveness, usefulness and timeliness.

The Audit Committee of the Board of Directors, regularly reviews the findings of the internal auditors, adequacy of internal controls, financial controls, compliance with the accounting standards, as well as recommends to the Board, the adoption of the quarterly and annual results of the Company and appointment of auditors. The Audit Committee also reviews the related party transactions, entered into by the Company during each quarter.

CAUTIONARY STATEMENT

Readers are cautioned that this Management Discussion and Analysis may contain certain forward looking statements based on various assumptions on the Company's present and future business strategies and the environment in which it operates. The Company's actual performance may differ materially from those expressed or implied in the statement as important factors could influence Company's operations such as effect of political conditions in India and abroad, economic development, new regulations and Government policies and such other factors beyond the control of the Company that may impact the businesses as well as its ability to implement the strategies.

(c) Remuneration Policy of the Company

The Company's philosophy for remuneration of Directors, key managerial personnel and senior management is based on the commitment of fostering a culture of leadership with trust.

The Company has adopted a Policy for remuneration of Directors, Key Managerial Personnel and other employees, which is aligned to this philosophy. The key factors considered in formulating the Policy are as under:

- (i) the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors of the quality required to run the Company successfully;
- (ii) relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and
- (iii) remuneration to Directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

The key principles governing the Company's Remuneration Policy are as follows:

Remuneration to Whole-time / Executive / Managing Director, KMP and Senior Management Personnel:

- **Fixed pay:**

The Whole-time Director / KMP and Senior Management Personnel shall be eligible for a monthly remuneration as may be approved by the Board on the recommendation of the Committee. The break up of the pay scale and quantum of perquisites including, employer's contribution to P.F, pension scheme, medical expenses, club fees etc. shall be decided and approved by the Board on the recommendation of the Committee and approved by the shareholders and Central Government, wherever required.

- **Minimum Remuneration:**

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Whole-time Director in accordance with the provisions of Schedule V of the Companies Act, 2013 and if it is not able to comply with such provisions, with the previous approval of the Central Government.

- **Provisions for excess remuneration:**

If any Whole-time Director draws or receives, directly or indirectly by way of remuneration any such sums in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he / she shall refund such sums to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration to Non- Executive / Independent Director:

INDEPENDENT AUDITORS' REPORT

To the Members of Panama Petrochem Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of Panama Petrochem Limited ("the Company"), which comprise the Balance Sheet as at 31 March, 2018, the statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2018 and its profit (including other comprehensive income), the changes in equity and its cash flows for the year ended on that date.

“Annexure B”

referred to in paragraph titled as “Report on the Internal Financial Controls under clause (i) of Sub- section 3 of Section 143 of the Companies Act, 2013” (“the Act”)

We have audited the internal financial controls over financial reporting of Panama Petrochem Limited (“the Company”) as of 31 March 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed

risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018
1. Company Information

Panama Petrochem Limited ("the Company") is a public limited Company domiciled in India. The registered office of the Company is at Plot No. 3303, GIDC Estate, Ankleshwar 393002, Gujarat, India and corporate office at 401, Aza House, Turner Road, Bandra West, Mumbai 400050. The Company was incorporated on 9 March 1982.

The Company is engaged in the manufacture of specialty petroleum products for diverse user industries like printing, textiles, rubber, pharmaceuticals, cosmetics, power and other industrial oil.

The equity shares of the Company are listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) in India. The Global Depository Receipts (GDRs) of the Company are listed on the Luxembourg stock exchange.

Authorisation of financial statements

The standalone financial statements were authorised for issue in accordance with a resolution of the Board of Directors passed on 25 May 2018.

2. Significant Accounting Policies:
(A) Basis of Preparation of Financial Statements

- (i) Compliance with Ind AS:** The standalone financial statements have been prepared to comply, in all material aspects, with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013, read with Companies (Indian Accounting Standards) Rules, 2015 and the relevant provisions of the Companies Act, 2013.

These Financial Statements are the first financial statements of the Company under Ind AS refer note 42 for an explanation of how the transition from previous Generally Accepted Accounting Principles (IGAAP) to Ind AS has affected the Company's financial position, financial performance and cash flows.

- (ii) Classification of assets and liabilities:** All assets and liabilities have been classified as current or non-current based on the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Deferred tax assets and liabilities are classified as non-current on net basis.

- (iii) Historical cost convention:** The financial statements have been prepared on going concern basis under the historical cost convention except:

- (a) certain financial instruments (including derivative instruments) and
- (b) defined benefit plans

Which are measured at fair value at the end of each reporting period, as explained in the accounting policies below.

- (iv) Functional and presentation currency :** The Company's functional and presentation currency is Indian Rupee (INR). All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs (₹ lakhs), except otherwise indicated.

- (v) Fair value measurement:** The Company measures certain financial assets and financial liabilities including derivatives and defined benefit plans at fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability take place either

- (a) in the principal market for the asset or liability or
- (b) in the absence or a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(B) Property, Plant and Equipment

- (i) Freehold land is carried at historical cost and all other property, plant and equipment are shown at cost (net of adjustable taxes) less accumulated depreciation and accumulated impairment losses. The cost of an asset comprises of its purchase price, non refundable / adjustable purchase taxes and any cost directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by the management, the initial estimate of any decommissioning obligation, if any and for assets that necessarily take a substantial period of time to get ready for their intended use, finance costs. The purchase price is the aggregate amount paid and the fair value of any other consideration given to acquire the asset. The cost also includes trial run cost and other operating expenses such as freight, installation charges etc. The projects under construction are carried at costs comprising of costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and attributable borrowing costs.
- (ii) Lease arrangements for land are identified as finance lease, in case such arrangements result in transfer of the related risks and rewards to the Company classifies land lease arrangement with a term in excess of 99 years as a finance lease.
- (iii) Stores and spares which meet the definition of property, plant and equipment and satisfy the recognition criteria of Ind AS 16 are capitalised as property, plant and equipment.
- (iv) When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.
- (v) An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset or significant part) is included in the Statement of Profit and Loss when the asset is derecognised.
- (vi) In line with the provisions of Schedule II to the Companies Act, 2013, the Company depreciates significant components of the main asset (which have different useful lives as compared to the main asset) based on the individual useful life of those components. Useful life for such components of property, plant and equipment has been assessed based on the historical experience and internal technical inputs.
- (vii) Depreciation on property, plant and equipment is provided as per written down value method based on useful life prescribed under Schedule II to the Companies Act, 2013. The Company has assessed the estimated useful lives of its property, plant and equipment and has adopted the useful lives and residual value as prescribed in Schedule II.

The property, plant and equipment acquired under finance lease are depreciated over the period of lease. Depreciation on stores and spares specific to an item or property, plant and equipment is based on life of the related property, plant and equipment. In other cases, the stores and spares are depreciated over their estimated useful life based on the technical assessment.

- (viii) The residual values and useful lives of property, plant and equipment are reviewed at each financial year end, and changes, if any, are accounted prospectively.

(C) Investment Property

Investment properties are properties held to earn rentals and / or for capital appreciation (including property under construction for such purpose). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with the requirements of Ind AS 16 for cost model.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property is included in the Statement of Profit and Loss in the period in which the property is derecognised.

Depreciation on investment property is provided as per written down value method based on estimated useful life which is considered at 60 years based on internal assessment.

(D) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets namely computer software is amortized at the rate of 33.33 % on a straight line basis over the estimated useful economic life.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Profit and Loss Statement when the asset is derecognized.

(E) Borrowing Costs

Borrowing costs are charged to Statement of Profit and Loss except to the extent attributable to acquisition / construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(F) Impairment of Non-financial Assets

At each balance sheet date, an assessment is made of whether there is any indication of impairment.

If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated.

(G) Non-current Assets held for sale

Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

Non-current assets are classified as held for sale if their carrying amounts will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the assets are available for immediate sale in their present condition subject only to terms that are usual and customary for sale of such assets.

Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held for sale.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

(H) Inventories

Inventories are valued as follows:

Raw materials	Lower of cost or net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a First In First Out (FIFO) basis. Cost of raw materials comprises of cost of purchase (net of discount) and other cost in bringing the inventory to their present location and condition excluding Cenvat credit / Countervailing duty. Customs duty on stock lying in bonded warehouse is included in cost.
Work-in-progress and Finished goods	Lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty. Cost is determined on a First In First Out (FIFO) basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(I) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

(i) Sale of Goods:

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. The Company collects sales taxes and value added taxes/goods & service tax (VAT/GST) on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenue. Excise duty deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of liability arising during the year.

(ii) Interest income:

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable. Interest income is included under the head "other income" in the Statement of Profit and Loss.

(iii) Dividend income:

Revenue is recognized when the shareholders' right to receive payment is established by the reporting date. Dividend income is included under the head "other income" in the Statement of Profit and Loss.

(iv) Rental Income:

Revenue is recognised on the basis of income arising from operating lease of investment properties is accounted for on a straight-line basis over the lease unless the payments are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases and is included in the head "other income" in the Statement of Profit and Loss.

(v) Others:

Revenue is recognised in respect of export incentives, insurance / other claims etc., when it is reasonably certain that the ultimate collection will be made.

(J) Expenditure on Research and Development

Revenue expenditure on Research and Development is charged to Statement of Profit and Loss under the appropriate heads of expenses. Expenditure relating to property, plant and equipment are capitalised under respective heads.

(K) Foreign Currency Transactions
(i) Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

(iii) Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting such monetary items of Company at rates different from those at which they were initially recorded during the year, or reported in financial statements, are recognized as income or as expenses in the year in which they arise.

(iv) Forward Contracts

The premium or discount arising at the inception of forward exchange contracts is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the Statement of Profit and Loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expense for the year.

(L) Employee Benefits
Post Retirement Benefits

The Company operates the following post-employment schemes:

- (a) defined benefit plan - gratuity
- (b) defined contribution plan - provident fund

Defined benefit plan - Gratuity obligation

Post-employment benefits (benefits which are payable on completion of employment) are measured on a discounted basis by the Projected Unit Credit Method on the basis of actuarial valuation annually.

The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less fair value of plan assets.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in Other Comprehensive Income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet.

Defined contribution plan

Retirement benefits in the form of Provident Fund is a defined contribution scheme and the contributions are charged to the Profit and Loss Account of the year when the contributions to the respective fund are due. There are no other obligations other than the contribution payable to the respective fund.

(M) Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset(s) or the arrangement conveys a right to use the asset, even if the right is not explicitly specified in an arrangement.

(a) As Company is the lessee

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the Profit and Loss Statement on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the Profit and Loss Statement. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the Profit and Loss Statement.

(b) Company is the lessor

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the Profit and Loss Statement on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the Profit and Loss Statement. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the Profit and Loss Statement.

(N) Taxation

Income tax expense comprises of current tax expense and the net change in the deferred tax asset or liability during the year.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

- (a) Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India.
- (b) Deferred Tax: Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax assets and deferred tax liabilities are off set if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

- (c) Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The Company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the Profit and Loss Statement and shown as "MAT Credit Entitlement." The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the sufficient period.

(O) Segment Reporting

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

(P) Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events, if any, such as bonus issue, bonus elements in a rights issue to existing shareholders, shares split and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(Q) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past events, for which it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

Contingent liabilities are disclosed in the case of:

- a) a present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- b) a present obligation arising from the past events, when no reliable estimate is possible;
- c) a possible obligation arising from past events, unless the probability of outflow of resources is remote.

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable.

(R) Financial Instruments

“Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.”

I. Financial Assets
A. Initial recognition and measurement :

Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of the financial asset [other than financial assets at fair value through profit or loss (FVTPL)] are added to the fair value of the financial assets. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset. Transaction costs of financial assets carried at FVTPL are expensed in the Statement of Profit and Loss.

B. Subsequent measurement:

For purposes of subsequent measurement, financial assets are classified in the following categories:

- (i) Debt instruments at amortised cost

A ‘debt instrument’ is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables.

- (ii) Debt instruments included within the Fair Value Through Profit or Loss (FVTPL) category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

- (iii) Equity instruments: All equity instruments within the scope of Ind-AS 109 are measured at fair value. Equity instruments which are classified as held for trading are measured at FVTPL. For all other equity instruments, the Company decides to measure the same either at Fair Value Through Other Comprehensive Income (FVTOCI) or FVTPL. The Company makes such selection on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

For equity instruments measured at FVTOCI, all fair value changes on the instrument, excluding dividends, are recognised in Other Comprehensive Income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of such instruments.

- iv) Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

C. De-recognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily de-recognised (i.e. removed from the Company’s balance sheet) when:

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

- the rights to receive cash flows from the asset have expired, or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement, and either:
 - (i) the Company has transferred substantially all the risks and rewards of the asset, or
 - (ii) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

D. Impairment of financial assets:

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on trade receivables and other advances. The Company follows 'simplified approach' for recognition of impairment loss on these financial assets. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

II. Financial Liabilities
A. Initial recognition and measurement:

Financial liabilities are classified at initial recognition as :

- (i) financial liabilities at fair value through profit or loss,
- (ii) loans and borrowings, payables, net of directly attributable transaction costs or
- (iii) derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Company's financial liabilities include trade and other payables, loans and borrowings including derivative financial instruments.

B. Subsequent Measurement :

The measurement of financial liabilities depends on their classification, as described below:

- (i) **Borrowings:** Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs.

Borrowings are removed from the Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished and the consideration paid is recognised in the Statement of Profit and Loss as other gains / (losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender has agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

- (ii) **Trade and other payables:** These amounts represent liabilities for goods and services provided to the Company prior to the end of financial period which are unpaid. The amounts are unsecured and are usually paid within twelve months of recognition. Trade and other payables are presented as current liabilities unless payment is not due within twelve months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.
- (iii) **Derivative financial instruments:** The Company uses derivative financial instruments, such as foreign exchange forward contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018
Hedge Accounting:

The Company designates certain hedging instruments which include derivatives, embedded derivatives and non derivatives in respect of foreign currency risk, as either fair value hedges, cash flow hedges or hedges of net investments in foreign operations. At the inception of the hedge relationship, the Company documents the relationship between the hedging instruments and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

C. De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another, from the same lender, on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

D. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(S) First-time adoption-mandatory exceptions, optional exemptions
Overall Principle

The Company has prepared the opening Balance Sheet as per Ind AS as of the transition date which is 1st April, 2016, by

- (a) recognising all assets and liabilities whose recognition is required by Ind AS;
- (b) not recognising items of assets or liabilities which are not permitted by Ind AS;
- (c) reclassifying items from previous GAAP to Ind AS as required under Ind AS; and
- (d) applying Ind AS in measurement of recognised assets and liabilities.

However, this principle is subject to certain exceptions and certain optional exemptions availed by the Company as detailed below:

1. De-recognition of financial assets and liabilities

The Company has applied the de-recognition requirements of financial assets and liabilities prospectively for transactions occurring on or after 1st April, 2016 (date of transition).

2. Classification of debt instruments

The Company has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTPL criteria based on the facts and circumstances that existed as of the transaction date.

3. Impairment of financial assets

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind AS, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

4. Deemed cost for property, plant and equipment, investment property and intangible assets

The Company has elected to continue with the carrying value of all of its property, plant and equipment, investment property and intangible assets recognised as of 1st April, 2016 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

5. Equity investments at FVTOCI

The Company has designated investment in equity shares as at FVTOCI on the basis of facts and circumstances that existed at the transition date.

The Company has elected to measure investment in subsidiary at cost.

6. Determining whether an arrangement contains a lease

The Company has applied Appendix C of Ind AS 17 determining whether an arrangement contains a lease to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

- (a) Operating lease commitments – Company as lessor;
- (b) Assessment of functional currency;
- (c) Evaluation of recoverability of deferred tax assets

Estimates and assumptions

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year :

- a) Useful lives of property, plant and equipment, investment property and intangible assets;
- b) Fair value measurements of financial instruments ;

The entity has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follow

Ageing	Expected credit loss (%)
0-180 days past due	5.09%

b) Rights, preferences and restrictions attached to equity shares

The Company has only one class of equity shares having a par value of ₹ 2 per share. Each holder of equity shares is entitled to one vote per share, however the holders of global depository receipts (GDR's) do not have any voting rights in respect of shares represented by the GDR's till the shares are held by the custodian bank. The company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting.

In the event of liquidation of the company, the holders of equity shares will be entitled to receive assets in proportion to the number of equity shares held by the shareholders.

35. Segment Information
A. Factors used to identify the entity's reportable segments, including the basis of organisation

For management purposes, as the Company is in the business of manufacturing and trading of specialty petroleum products, the Company has considered petroleum products as the only business segment for disclosure in this context of Indian Accounting Standard 108.

The Managing Director (MD) evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by operating segment. The MD reviews revenue and gross profit as the performance indicator for the operating segment. However, the Company's finance (including finance cost and finance income) and income taxes are managed on a company as a whole basis and are not allocated to any segment.

Geographical segment of the organisation

For the purpose of geographical segment the sales are divided into two segments - within India and outside India. The accounting policies of the segments are the same as those described in Note 2 (O).

B. Information about reportable segment

The following table shows the distribution of the Company's reportable segment by geographical market, regardless of where the goods were produced:

40. Financial Instruments : Accounting classifications and fair value measurements
(i) Accounting classifications

The fair values of the financial assets and liabilities are determined at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

The carrying amounts of trade receivables, cash and cash equivalents, bank balances, short term deposits, trade payables, payables for acquisition of property, plant and equipment, short term loans from banks, financial institutions and other current financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

(ii) Fair value measurements

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following table presents carrying value and fair value of financial instruments by categories and also fair value hierarchy of assets and liabilities measured at fair value :

Loan to employees	Based on prevailing market interest rate
Derivative instruments	Fair valued based on prevailing market rate at each closing date
Short term loans from banks	Based on quotes from banks and financial institutions

41. Financial risk management
Risk management framework

The Company has identified financial risks and categorised them in three parts viz. (i) Credit Risk, (ii) Liquidity Risk and (iii) Market Risk. Details regarding sources of risk in each such category and how Company manages the risk is explained in following notes:

(i) Credit risk

Credit risk refers to the possibility of a customer and other counter parties not meeting their obligations and terms and conditions which would result into financial losses. Such risk arises mainly from trade receivables and investments. Credit risk is managed through internal credit control mechanism such as credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments. The maximum exposure to credit risk in case of all the financial instruments covered below is restricted to their respective carrying amount.

Trade receivables

As per the credit policy of the Company, generally no credit are given exceeding the accepted credit norms. The Company deals with large corporate houses and State Electricity Boards after considering their credit standing. The credit policy with respect to other customers is strictly monitored by the Company at periodic intervals. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers. In addition, for amounts recoverable on exports, the Company has adequate insurance to mitigate overseas customer and country risk.

The Company uses an allowance matrix to measure the expected credit losses of trade receivables (which are considered good). The following table provides information about the exposure to credit risk and loss allowance (including expected credit loss provision) for trade receivables:

Ageing	Gross Carrying Amount	Expected Credit Loss Rate	Credit Loss	₹ In lakhs
				Net Carrying Amount
0-180 days past due	339.42	5.09%	17.26	322.16
180-365 days past due	115.45	10.31%	11.91	103.55
More than 365 days past due	183.44	12.89%	23.65	159.79
	638.31	28.29%	52.81	585.50

Note - Expected credit loss is worked out on the trade receivable for which no specific provision is made.

Cash and cash equivalents

The Company held cash and cash equivalents of ₹ 2453.22 lakhs at 31.3.2018 (31.3.2017: ₹ 1005.42 lakhs, 1.4.2016 : ₹ 818.71 lakhs). The cash and cash equivalents are held with banks with good credit ratings. Also, the Company invests its surplus funds in bank fixed deposits, which carry no / low mark to market risks for short duration and therefore, does not expose the Company to credit risk.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018
Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

Derivatives

The forward contracts were entered into with banks having an investment grade rating and exposure to counterparties is closely monitored and kept within the approved limits.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations on due date. The Company has a strong focus on effective management of its liquidity to ensure that all business and financial commitments are met on time. This is ensured through proper financial planning with detailed annual business plans, discussed at appropriate levels within the organisation. Annual business plans are divided into quarterly plans and put up to management for detailed discussion and an analysis of the nature and quality of the assumptions, parameters etc. Daily and monthly cash flows are prepared, followed and monitored at senior levels to prevent undue loss of interest and utilise cash in an effective manner. Cash management services are availed to avoid any loss of interest on collections. In addition, the Company has adequate borrowing limits with reputed banks in place duly approved.

a) Financing arrangements

The Company has an adequate fund and non-fund based limits lines with various banks. The Company's diversified source of funds and strong operating cash flow enables it to maintain requisite capital structure discipline. The financing products include working capital loans, buyer's credit loan, supplier's credit loan etc.

b) Maturities of financial liabilities

The amounts disclosed in the table are the contractual undiscounted cash flows within one year

Derivative liabilities	(21.38)	280.46	3.16
	54,327.71	27,159.50	17,571.84

(iii) Market Risk

The risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market price. Market risk further comprises of (a) Currency risk, (b) Interest rate risk and (c) Commodity risk.

a) Currency Risk

The Company is exposed to currency risk mainly on account of its import payables and export receivables in foreign currency. The major exposures of the Company are in U.S. dollars. The Company hedges its import foreign exchange exposure partly through exports and depending upon the market situations partly through forward foreign currency covers. The Company has a policy in place for hedging its foreign currency exposure. The Company does not use derivative financial instruments for trading or speculative purposes.

b) Interest rate risk

The Company is not exposed to significant interest rate risk during the respective reporting periods. Short term loans are taken on fixed interest rates.

c) Commodity Risk
Raw Material Risk

“Timely availability and also non-availability of good quality base oils from across the globe could negate the qualitative and quantitative production of the various products of the Company. Volatility in prices of crude oil and base oil is another major risk for this segment. The Company procures base oils from various suppliers scattered in different parts of the world. The Company tries to enter into long term supply contracts with regular suppliers and at times buys the base oils on spot basis.”

Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

i) Debt Equity Ratio

The Company monitors capital using debt equity ratio. The Company's debt to equity ratios are as follows:

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

42. First time adoption of Ind AS**42.1 Mandatory exceptions, optional exemptions****Transition to Ind AS**

These are the Company's first financial statements prepared in accordance with Ind AS. For the year ended 31st March, 2017, the Company had prepared its financial statements in accordance with Companies (Accounting Standards) Rules, 2014, notified under Section 133 of the Companies Act, 2013 and other relevant provisions of the Act ('IGAAP'). The accounting policies set out in Note 2 have been applied in preparing these Financial Statements for the year ended 31st March, 2017 and the opening Ind AS Balance Sheet on the date of transition (i.e. 1st April, 2016). In preparing its Ind AS Balance Sheet as at 1st April, 2016 and in presenting the comparative information for the year ended 31st March, 2017, the Company has adjusted amounts previously reported in the Financial Statements prepared in accordance with IGAAP. This note explains the principal adjustments made by the Company in restating its Financial Statements prepared in accordance with IGAAP, and how the transition from IGAAP to Ind AS has impacted the Company financial position, financial performance and cash flows.

Exemptions and exceptions availed

In preparing the Financial Statement, the Company has availed the below mentioned optional exemptions and mandatory exceptions.

A. Exceptions :

1. Classification and measurement of financial assets

As permitted under Ind AS 101, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. In line with Ind AS 101, measurement of financial assets accounted at amortised cost has been done retrospectively except where the same is impracticable.

2. Estimates

Ind AS estimates as at 1st April, 2016 are consistent with the estimates as at the same date made in conformity with IGAAP. Company has made estimates for following items in accordance with Ind AS at the date of transition as these were not required under IGAAP:

- investment in equity instruments carried at FVTOCI;
- impairment of financial assets based on expected credit loss model;
- determination of the discounted value for financial instruments carried at amortised cost.

B. Optional exemptions :**Property, plant and equipment and intangible assets**

The Company has availed the exemption available under Ind AS 101 to continue the carrying value for all of its property, plant and equipment and intangible assets as recognised in the Financial Statements as at the date of transition to Ind AS, measured as per the IGAAP and use that as its deemed cost as at the date of transition (1st April, 2016).

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

42.3 Notes to the reconciliations**1 Property, plant and equipment:**

Under previous GAAP, there was no requirement to present investment property separately and the same was included under tangible fixed assets (buildings) and measured at cost less accumulated depreciation. Under Ind AS, investment property is required to be presented separately in the balance sheet and depreciation is charged on it. Accordingly, the carrying amount of investment property as at 1st April, 2016 of ₹ 578.63 lakhs and as at 31st March, 2017 of ₹ 578.63 lakhs (before considering depreciation) under previous GAAP has been reclassified to a separate line item on the face of the balance sheet. There is no impact on the statement of profit and loss.

2 Fair valuation of investments:

Under previous GAAP, long term investments were measured at cost less diminution in the value which is other than temporary. Under Ind AS, these assets are classified as financial assets measured at fair value through profit or loss (FVOCI). On the date of transition to Ind AS, these financial assets have been measured at their fair value which is lower/higher than the cost as per previous GAAP, resulting in a decrease in the carrying amount by ₹ (4.69) lakhs as at 1st April, 2016 and increase by ₹ 4.01 lakhs as at 31st March, 2017.

3. Trade receivables:

Under Indian GAAP, the Company has created provision for impairment of receivables only in respect of specific amount for incurred losses. Under Ind AS, impairment allowance has been determined based on Expected Credit Loss (ECL) model. Due to ECL model, the Company impaired its trade receivable by ₹ 35.67 lakhs on 1st April, 2016 which has been eliminated against retained earnings. The impact of ₹ (6.59) lakhs for year ended on 31st March, 2017 has been recognised in the statement of profit and loss. Moreover, all trade receivables are now classified as current financial assets as per Ind AS.

4. Other Comprehensive income:

Under previous GAAP, there was no concept of other comprehensive income. Under Ind AS, specified items of income, expense, gains or losses are required to be presented in other comprehensive income.

5. Dividend (including dividend tax):

Under previous GAAP, proposed dividends including Dividend Distribution Tax (DDT) are recognised as a liability in the period to which they relate, irrespective of when they are declared. Under Ind AS, a proposed dividend is recognised as a liability in the period in which it is declared by the company (usually when approved by shareholders in a general meeting) or paid. In the case of the company, the declaration of dividend occurs after period end. Therefore, the short term provision of ₹ 243.84 lakhs (including DDT) for the year ended on 31st March, 2016 recorded for dividend has been derecognised against retained earnings on 1st April, 2016.

6. Employee benefits:

"Both under Indian GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. Under Indian GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements are to be recognised under other comprehensive income. Consequently, the tax effect of the same has also been recognised in other comprehensive income under Ind AS instead of profit or loss. On the date of transition, this change does not affect total equity."

7. Deferred tax:

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP. In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognised in co-relation to the underlying transaction either in retained earnings or a separate component of equity. On the date of transition, the net impact on deferred tax assets is of ₹ 176.29 lakhs with corresponding impact on retained earnings. For the year ended 31st March, 2017, deferred tax expenses are reduced by ₹ (57.38) lakhs.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

8. Revenue:

Under previous GAAP, revenue from sale of products was presented net of excise duty under revenue from operations. Whereas, under Ind AS, revenue from sale of products includes excise duty. The corresponding excise duty expense is presented on the face of the statement of profit and loss. The change does not affect total equity as at 1st April, 2016 and 31st March, 2017, profit before tax or total profit for the year ended 31st March, 2018.

9. As per Ind AS, cash and cash equivalents are shown as a separate item and other bank balances are shown separately.

10. As per Ind AS, certain assets and liabilities are reclassified as financial assets or liabilities based on the recognition criteria for financial asset or financial liability.

43. Previous year figures

The company has reclassified previous year figures to conform to this year's classification.

INDEPENDENT AUDITORS' REPORT

**To the Members of
Panama Petrochem Limited****Report on the Consolidated Ind AS Financial Statements**

We have audited the accompanying consolidated Ind AS financial statements of Panama Petrochem Limited ("the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group"), comprising of the Consolidated Balance Sheet as at 31 March, 2018, the Consolidated Statement of Profit and Loss Statement (including Other Comprehensive Income), the Consolidated Cash Flow Statement for the year then ended and the Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the consolidated Ind AS Financial Statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows and changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act, read with relevant rules issued there under. The Holding Company's Board of Directors is also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with provisions of the Act for safeguarding assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report.

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by other auditors in terms of their reports referred to in sub-paragraph (a) of the Others Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, and based on consideration of the reports of other auditors, on the financial statements of the subsidiary, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2018, and its consolidated total comprehensive income (comprising of consolidated profit and consolidated other comprehensive income), its consolidated cash flows and consolidated changes in equity for the year ended on that date.

Other Matters

- a. We did not audit the financial statements of a subsidiary company located outside India, whose financial statements reflect total assets of Rs. 13,099.52 lakhs as at 31 March 2018, total revenue of Rs. 15,658.72 lakhs and net cash flows amounting to Rs. 661.32 lakhs for the year ended on that date, as considered in the consolidated financial statements. The financial statements of the subsidiary have been audited by other auditors whose report have been furnished to us by the management and our opinion on the consolidated Ind AS financial statements in so far as it relates to the amounts and disclosures included in respect of this subsidiary, and our report in terms of section 143 (3) of the Act, in so far as it relates to the aforesaid subsidiary is based solely on the reports of the other auditor.
- b. Subsidiary is located outside India whose financial statements have been prepared in accordance with accounting principles generally accepted in its respective country and which have been reviewed and audited by the other auditor as applicable, under generally accepted auditing standards applicable in its respective country. The Company's Management has converted the financial statements of such subsidiary located outside India from accounting principles generally accepted in its country to the accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's Management. Our opinion in so far as it relates to the balances and affairs of such subsidiary located outside India is based on the report of other auditor and the conversion adjustments prepared by the Management of the Company and audited by us.

Our opinion is not qualified in respect of these matters.

Report on Other Legal and Regulatory Requirements

1. As required by section 143 (3) of the Act, we report, to the extent applicable, that:
 - a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements;
 - b. in our opinion, proper books of account as required by law maintained by the Holding Company and its Subsidiary included in the Group, including relevant records relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and records of the Holding Company and the report of the other auditor;
 - c. the Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), Consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained by the Holding Company and its subsidiary including relevant records relating to the preparation of the consolidated Ind AS financial statements;
 - d. in our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.;
 - e. on the basis of written representations received from the directors of the Holding Company as on 31 March 2018 taken on record by the Board of Directors of the Holding Company, none of the directors of the Holding Company is disqualified as on 31 March 2018, from being appointed as a director in terms of Section 164(2) of the Act;
 - f. with respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and the operating effectiveness of such controls, refer to our separate report in "Annexure A"; and
 - g. with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. the consolidated Ind AS financial statements disclose the impact of pending litigations as at 31 March 2018 on the consolidated financial position of the Group - Refer Note 30 to the consolidated Ind AS financial statements;
 - ii. The Holding Company has made provision in the consolidated Ind AS financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 41 to the consolidated Ind AS financial statements;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2018.

"Annexure A"

referred to in paragraph titled as "Report on the Internal Financial Controls under clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013" ("the Act")

We have audited the internal financial controls over financial reporting of Panama Petrochem Limited ("the Holding Company") as of 31 March 2018 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Holding Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

1. Corporate Group Information

Panama Petrochem Limited is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 2013. Panama Petrochem Limited and its subsidiary (collectively referred as "the group"). The Group's principal operations are located in India and it has operation in United Arab Emirates. The Group is engaged in the manufacture of specialty petroleum products for diverse user industries like printing, textiles, rubber, pharmaceuticals, cosmetics, power and other industrial oil. The equity shares of the Company are listed on the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) in India. The Global Depository Receipts (GDRs) of the Company are listed on the Luxembourg stock exchange.

2. Significant Accounting Policies:
(A) Basis of Preparation of Financial Statements

(i) Compliance with Ind AS: These consolidated financial statements of the Group have been prepared to comply, in all material aspects, with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013, read with Companies (Indian Accounting Standards) Rules, 2015 and the relevant provisions of the Companies Act, 2013.

These Financial Statements are the first financial statements of the Group under Ind AS refer note 42 for an explanation of how the transition from previous Generally Accepted Accounting Principles (IGAAP) to Ind AS has affected the Group's financial position, financial performance and cash flows.

These consolidated financial statements were approved by the Company's Board of Directors and authorised for issue on 25th May 2018.

(ii) Classification of assets and liabilities: All assets and liabilities have been classified as current or non-current based on the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Deferred tax assets and liabilities are classified as non-current on net basis.

(iii) Historical cost convention: The financial statements have been prepared on going concern basis under the historical cost convention except:

- (a) certain financial instruments (including derivative instruments) and
- (b) defined benefit plans

Which are measured at fair value at the end of each reporting period, as explained in the accounting policies below.

(iv) Functional and presentation currency: The Group's functional and presentation currency is Indian Rupee (INR). All amounts disclosed in the financial statements and notes have been rounded off to the nearest lacs (₹ lacs), except otherwise indicated.

(v) Fair value measurement: The Group measures certain financial assets and financial liabilities including derivatives and defined benefit plans at fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability take place either

- (a) in the principal market for the asset or liability or
- (b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group's determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(vi) Principles of consolidation

- 1) The consolidated financial statements include the financial statements of Panama Petrochem Limited, the parent company (hereinafter referred to as 'the Company') and its subsidiary (collectively referred to as the 'Group').

The consolidated financial statements have been prepared on the following basis:

- i. The financial statements of the parent company and the subsidiary have been combined on a line by line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances / transactions and resulting unrealized profits in full. Unrealized losses resulting from intra-group transactions have also been eliminated except to the extent that recoverable value of related assets is lower than their cost to the Group. The amounts shown in respect of reserves comprise the amount of the relevant reserves as per the balance sheet of the parent company and its share in the post acquisition increase in the relevant reserves of the subsidiaries.
 - ii. The excess of the cost of acquisition of investments in the subsidiaries over the acquired portion of equity in the subsidiaries is recognized in the financial statements as 'goodwill'. The excess of acquired portion of equity in subsidiaries over the cost of acquisition of investments in the subsidiaries is recognized in the financial statements as 'capital reserve'.
 - iii. Minority interest in the net assets of consolidated subsidiaries consists of:
 - (a) the amount of equity attributable to minorities at the date on which investment in subsidiary is made; and
 - (b) the minorities share of movements in equity since the date the parent and subsidiary relationship came into existence.
 - iv. The consolidated financial statements are presented, to the extent possible, in the same format as that adopted by the parent company for its separate financial statements.
 - v. The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances to the extent possible.
- 2) The subsidiary company considered in the consolidated financial statements are:

Name of the Subsidiary	Country of incorporation	Extent of holding (%)	Reporting currency	Effective date of becoming subsidiary
Panol Industries RMC FZE	United Arab Emirates (U.A.E.)	100	AED	1 January 2013

(B) Property, Plant and Equipment

- (i) Freehold land is carried at historical cost and all other property, plant and equipment are shown at cost (net of adjustable taxes) less accumulated depreciation and accumulated impairment losses. The cost of an asset comprises of its purchase price, non refundable / adjustable purchase taxes and any cost directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by the management, the initial estimate of any decommissioning obligation, if any and for assets that necessarily take a substantial period of time to get ready for their intended use, finance costs. The purchase price is the aggregate amount paid and the fair value of any other consideration given to acquire the asset. The cost also includes trial run cost and other operating expenses such as freight, installation charges etc. The projects under construction are carried at costs comprising of costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and attributable borrowing costs.
- (ii) Lease arrangements for land are identified as finance lease, in case such arrangements result in transfer of the related risks and rewards to the Group classifies land lease arrangement with a term in excess of 99 years as a finance lease.
- (iii) Stores and spares which meet the definition of property, plant and equipment and satisfy the recognition criteria of Ind AS 16 are capitalised as property, plant and equipment.

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

- (iv) When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives.
- (v) An Item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset or significant part) is included in the Statement of Profit and Loss when the asset is derecognised.
- (vi) In line with the provisions of Schedule II to the Companies Act, 2013, the Group depreciates significant components of the main asset (which have different useful lives as compared to the main asset) based on the individual useful life of those components. Useful life for such components of property, plant and equipment has been assessed based on the historical experience and internal technical inputs.
- (vii) Depreciation on property, plant and equipment is provided as per written down value method based on useful life prescribed under Schedule II to the Companies Act, 2013. The Group has assessed the estimated useful lives of its property, plant and equipment and has adopted the useful lives and residual value as prescribed in Schedule II.

The property, plant and equipment acquired under finance lease are depreciated over the period of lease. Depreciation on stores and spares specific to an item or property, plant and equipment is based on life of the related property, plant and equipment. In other cases, the stores and spares are depreciated over their estimated useful life based on the technical assessment.

- (viii) The residual values and useful lives of property, plant and equipment are reviewed at each financial year end, and changes, if any, are accounted prospectively.

(C) Investment Property

Investment properties are properties held to earn rentals and / or for capital appreciation (including property under construction for such purpose). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with the requirements of Ind AS 16 for cost model.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property is included in the Statement of Profit and Loss in the period in which the property is derecognised.

Depreciation on investment property is provided as per written down value method based on estimated useful life which is considered at 60 years based on internal assessment.

(D) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets namely computer software is amortized at the rate of 33.33 % on a straight line basis over the estimated useful economic life.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Profit and Loss Statement when the asset is derecognized.

(E) Borrowing Costs

Borrowing costs are charged to Statement of Profit and Loss except to the extent attributable to acquisition / construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(F) Impairment of Non-financial Assets

At each balance sheet date, an assessment is made of whether there is any indication of impairment.

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated.

(G) Non-current Assets held for sale

Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

Non-current assets are classified as held for sale if their carrying amounts will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the assets is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such assets

Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held for sale.

(H) Inventories

Inventories are valued as follows:

Raw materials	Lower of cost or net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on a First In First Out (FIFO) basis. Cost of raw materials comprises of cost of purchase (net of discount) and other cost in bringing the inventory to their present location and condition excluding Cenvat credit / Countervailing duty. Customs duty on stock lying in bonded warehouse is included in cost.
Work-in-progress and Finished goods	Lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty. Cost is determined on a First In First Out (FIFO) basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(I) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

(i) Sale of Goods:

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. The Group collects sales taxes and value added taxes/goods & service tax (VAT/GST) on behalf of the government and, therefore, these are not economic benefits flowing to the Group. Hence, they are excluded from revenue. Excise duty deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of liability arising during the year.

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018**(ii) Interest income:**

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable. Interest income is included under the head "other income" in the Statement of Profit and Loss.

(iii) Dividend income:

Revenue is recognised when the shareholders' right to receive payment is established by the reporting date. Dividend income is included under the head "other income" in the Statement of Profit and Loss.

(iv) Rental Income:

Revenue is recognised on the basis of income arising from operating lease of investment properties is accounted for on a straight-line basis over the lease unless the payments are structured to increase in line with the expected general inflation to compensate for the lessor's expected inflationary cost increases and is included in the head "other income" in the Statement of Profit and Loss.

(v) Others:

Revenue is recognised in respect of export incentives, insurance / other claims etc., when it is reasonably certain that the ultimate collection will be made.

(J) Expenditure on Research and Development

Revenue expenditure on Research and Development is charged to Statement of Profit and Loss under the appropriate heads of expenses. Expenditure relating to property, plant and equipment are capitalised under respective heads.

(K) Foreign Currency Transactions**(i) Initial Recognition**

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

iii) Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting such monetary items of Group at rates different from those at which they were initially recorded during the year, or reported in financial statements, are recognized as income or as expenses in the year in which they arise.

(iv) Forward Contracts

The premium or discount arising at the inception of forward exchange contracts is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the Statement of Profit and Loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expense for the year.

(L) Employee Benefits**Post Retirement Benefits**

The Group operates the following post-employment schemes:

- (a) defined benefit plan - gratuity
- (b) defined contribution plan - provident fund

Defined benefit plan - Gratuity obligation

Post-employment benefits (benefits which are payable on completion of employment) are measured on a discounted basis by the Projected Unit Credit Method on the basis of actuarial valuation annually.

The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less fair value of plan assets.

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in Other Comprehensive Income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet.

Defined contribution plan

Retirement benefits in the form of Provident Fund is a defined contribution scheme and the contributions are charged to the Profit and Loss Account of the year when the contributions to the respective fund are due. There are no other obligations other than the contribution payable to the respective fund.

(M) Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset(s) or the arrangement conveys a right to use the asset, even if the right is not explicitly specified in an arrangement.

(a) Group is the lessee

Leases in which the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the Profit and Loss Statement on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the Profit and Loss Statement. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the Profit and Loss Statement.

(b) Group is the lessor

Leases in which the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the Profit and Loss Statement on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the Profit and Loss Statement. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the Profit and Loss Statement.

(N) Taxation

Income tax expense comprises of current tax expense and the net change in the deferred tax asset or liability during the year.

- (a) Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India.
- (b) Deferred Tax: Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax assets and deferred tax liabilities are off set if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

- (c) Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The Company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the Profit

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

and Loss Statement and shown as "MAT Credit Entitlement." The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the sufficient period.

(O) Segment Reporting

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

(P) Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events, if any, such as bonus issue, bonus elements in a rights issue to existing shareholders, shares split and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(Q) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of past events, for which it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates

Contingent liabilities are disclosed in the case of:

- a) a present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- b) a present obligation arising from the past events, when no reliable estimate is possible;
- c) a possible obligation arising from past events, unless the probability of outflow of resources is remote.

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable.

(R) Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

I. Financial Assets
A. Initial recognition and measurement:

Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of the financial asset [other than financial assets at fair value through profit or loss (FVTPL)] are added to the fair value of the financial assets. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset. Transaction costs of financial assets carried at FVTPL are expensed in the Statement of Profit and Loss.

B. Subsequent measurement:

For purposes of subsequent measurement, financial assets are classified in the following categories:

- (i) Debt instruments at amortised cost

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables.

- (ii) Debt instruments included within the Fair Value Through Profit or Loss (FVTPL) category are measured at fair value with all changes recognised in the Statement of Profit and Loss.
- iii) Equity instruments: All equity instruments within the scope of Ind-AS 109 are measured at fair value. Equity instruments which are classified as held for trading are measured at FVTPL. For all other equity instruments, the Company decides to measure the same either at Fair Value Through Other Comprehensive Income (FVTOCI) or FVTPL. The Company makes such selection on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

For equity instruments measured at FVTOCI, all fair value changes on the instrument, excluding dividends, are recognised in Other Comprehensive Income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of such instruments.

- iv) Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

C. De-recognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily de-recognised (i.e. removed from the Group's balance sheet) when:

- the rights to receive cash flows from the asset have expired, or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement, and either:
 - (i) the Group has transferred substantially all the risks and rewards of the asset, or
 - (ii) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

D. Impairment of financial assets:

In accordance with Ind-AS 109, the Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on trade receivables and other advances. The Group follows 'simplified approach' for recognition of impairment loss on these financial assets. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

II. Financial Liabilities

A. Initial recognition and measurement:

Financial liabilities are classified at initial recognition as :

- (i) financial liabilities at fair value through profit or loss,
- (ii) loans and borrowings, payables, net of directly attributable transaction costs or
- (iii) derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Group's financial liabilities include trade and other payables, loans and borrowings including derivative financial instruments.

B. Subsequent measurement :

The measurement of financial liabilities depends on their classification, as described below:

- (i) **Borrowings:** Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs.

Borrowings are removed from the Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished and the consideration paid is recognised in the Statement of Profit and Loss as other gains / (losses).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender has agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(ii) Trade and other payables: These amounts represent liabilities for goods and services provided to the Group prior to the end of financial period which are unpaid. The amounts are unsecured and are usually paid within twelve months of recognition. Trade and other payables are presented as current liabilities unless payment is not due within twelve months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(iii) Derivative financial instruments: The Group uses derivative financial instruments, such as foreign exchange forward contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Hedge accounting :

The Group designates certain hedging instruments which include derivatives, embedded derivatives and non derivatives in respect of foreign currency risk, as either fair value hedges, cash flow hedges or hedges of net investments in foreign operations. At the inception of the hedge relationship, the Group documents the relationship between the hedging instruments and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

C. De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another, from the same lender, on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

D. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(S) First-time adoption-mandatory exceptions, optional exemptions
Overall Principle

The Company has prepared the opening Balance Sheet as per Ind AS as of the transition date which is 1st April, 2016, by

- (a) recognising all assets and liabilities whose recognition is required by Ind AS;
- (b) not recognising items of assets or liabilities which are not permitted by Ind AS;
- (c) reclassifying items from previous GAAP to Ind AS as required under Ind AS; and
- (d) applying Ind AS in measurement of recognised assets and liabilities.

However, this principle is subject to certain exceptions and certain optional exemptions availed by the Group as detailed below :

1. De-recognition of financial assets and liabilities

The Group has applied the de-recognition requirements of financial assets and liabilities prospectively for transactions occurring on or after 1st April, 2016 (date of transition).

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018
2. Classification of debt instruments

The Group has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTPL criteria based on the facts and circumstances that existed as of the transaction date.

3. Impairment of financial assets

The Group has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Group has not undertaken an exhaustive search for information when determining, at the date of transition to Ind AS, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

4. Deemed cost for property, plant and equipment, investment property and intangible assets

The Group has elected to continue with the carrying value of all of its property, plant and equipment, investment property and intangible assets recognised as of 1st April, 2016 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

5. Equity investments at FVTOCI

The Group has designated investment in equity shares as at FVTOCI on the basis of facts and circumstances that existed at the transition date. The Group has elected to measure investment in subsidiary at cost.

6. Determining whether an arrangement contains a lease

The Group has applied Appendix C of Ind AS 17 determining whether an arrangement contains a lease to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

7. Currency translation reserve

The Group has opted to continue the balance in Foreign Currency Translation Reserve on transition date as deemed reserve as at the date of transition .

Significant accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

- (a) Operating lease commitments – Group as lessor;
- (b) Assessment of functional currency;
- (c) Evaluation of recoverability of deferred tax assets

Estimates and assumptions

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year :

- a) Useful lives of property, plant and equipment, investment property and intangible assets;
- b) Fair value measurements of financial instruments ;
- c) Impairment of non-financial assets;
- d) Taxes;
- e) Defined benefit plans (gratuity benefits);
- f) Provisions;
- g) Valuation of inventories;
- h) Contingencies

The holding Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follow

Ageing	Expected credit loss (%)
0-180 days past due	5.09%

b) Rights, preferences and restrictions attached to equity shares

The Company has only one class of equity shares having a par value of ₹ 2 per share. Each holder of equity shares is entitled to one vote per share, however the holders of global depository receipts (GDR's) do not have any voting rights in respect of shares represented by the GDR's till the shares are held by the custodian bank. The company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting.

In the event of liquidation of the company, the holders of equity shares will be entitled to receive assets in proportion to the number of equity shares held by the shareholders.

35. Segment Information
A. Factors used to identify the entity's reportable segments, including the basis of organisation

For management purposes, as the Company is in the business of manufacturing and trading of specialty petroleum products, the Company has considered petroleum products as the only business segment for disclosure in this context of Indian Accounting Standard 108.

The Managing Director (MD) evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by operating segment. The MD reviews revenue and gross profit as the performance indicator for the operating segment. However, the Company's finance (including finance cost and finance income) and income taxes are managed on a company as a whole basis and are not allocated to any segment.

Geographical segment of the organisation

For the purpose of geographical segment the sales are divided into two segments - within India and outside India. The accounting policies of the segments are the same as those described in Note 2 (O).

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

40. Financial Instruments : Accounting classifications and fair value measurements
(i) Accounting classifications

The fair values of the financial assets and liabilities are determined at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

The carrying amounts of trade receivables, cash and cash equivalents, bank balances, short term deposits, trade payables, payables for acquisition of property, plant and equipment, short term loans from banks, financial institutions and other current financial assets and liabilities are considered to be the same as their fair values, due to their short-term nature.

(ii) Fair value measurements

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following table presents carrying value and fair value of financial instruments by categories and also fair value hierarchy of assets and liabilities measured at fair value :

41. Financial risk management
Risk management framework

The Company has identified financial risks and categorised them in three parts viz. (i) Credit Risk, (ii) Liquidity Risk and (iii) Market Risk. Details regarding sources of risk in each such category and how Company manages the risk is explained in following notes:

(i) Credit risk

Credit risk refers to the possibility of a customer and other counterparties not meeting their obligations and terms and conditions which would result into financial losses. Such risk arises mainly from trade receivables and investments. Credit risk is managed through internal credit control mechanism such as credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments. The maximum exposure to credit risk in case of all the financial instruments covered below is restricted to their respective carrying amount.

Trade receivables

As per the credit policy of the Company, generally no credit are given exceeding the accepted credit norms. The Company deals with large corporate houses and State Electricity Boards after considering their credit standing. The credit policy with respect to other customers is strictly monitored by the Company at periodic intervals. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers. In addition, for amounts recoverable on exports, the Company has adequate insurance to mitigate overseas customer and country risk.

The Company uses an allowance matrix to measure the expected credit losses of trade receivables (which are considered good). The following table provides information about the exposure to credit risk and loss allowance (including expected credit loss provision) for trade receivables:

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

Ageing	Gross Carrying Amount	Expected Credit Loss Rate	Credit Loss	₹ In lakhs
				Net Carrying Amount
0-180 days past due	339.42	5.09%	17.26	322.16
180-365 days past due	115.45	10.31%	11.91	103.55
More than 365 days past due	183.44	12.89%	23.65	159.79
	638.31	28.29%	52.81	585.50

Note - Expected credit loss is worked out on the trade receivable for which no specific provision is made.

Cash and cash equivalents

The Company held cash and cash equivalents of ₹ 2,453.22 lakhs at 31.3.2018 (31.3.2017: ₹ 1,005.42 lakhs, 1.4.2016 : ₹ 818.71 lakhs). The cash and cash equivalents are held with banks with good credit ratings. Also, the Company invests its surplus funds in bank fixed deposits, which carry no / low mark to market risks for short duration and therefore, does not expose the Company to credit risk.

Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

Derivatives

The forward contracts were entered into with banks having an investment grade rating and exposure to counterparties is closely monitored and kept within the approved limits.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations on due date. The Company has a strong focus on effective management of its liquidity to ensure that all business and financial commitments are met on time. This is ensured through proper financial planning with detailed annual business plans, discussed at appropriate levels within the organisation. Annual business plans are divided into quarterly plans and put up to management for detailed discussion and an analysis of the nature and quality of the assumptions, parameters etc. Daily and monthly cash flows are prepared, followed and monitored at senior levels to prevent undue loss of interest and utilise cash in an effective manner. Cash management services are availed to avoid any loss of interest on collections. In addition, the Company has adequate borrowing limits with reputed banks in place duly approved.

a) Financing arrangements

The Company has an adequate fund and non-fund based limits lines with various banks. The Company's diversified source of funds and strong operating cash flow enables it to maintain requisite capital structure discipline. The financing products include working capital loans, buyer's credit loan, supplier's credit loan etc.

b) Maturities of financial liabilities

The amounts disclosed in the table are the contractual undiscounted cash flows within one year

Derivative liabilities	(21.38)	280.46	3.16
	59,431.02	34,613.60	21,082.98

(iii) Market Risk

The risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market price. Market risk further comprises of (a) Currency risk, (b) Interest rate risk and (c) Commodity risk.

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018
a) Currency Risk

The Company is exposed to currency risk mainly on account of its import payables and export receivables in foreign currency. The major exposures of the Company are in U.S. dollars. The Company hedges its import foreign exchange exposure partly through exports and depending upon the market situations partly through forward foreign currency covers. The Company has a policy in place for hedging its foreign currency exposure. The Company does not use derivative financial instruments for trading or speculative purposes.

The Company is not exposed to significant interest rate risk during the respective reporting periods. Short term loans are taken on fixed interest rates.

c) Commodity Risk
Raw Material Risk

"Timely availability and also non-availability of good quality base oils from across the globe could negate the qualitative and quantitative production of the various products of the Company. Volatility in prices of crude oil and base oil is another major risk for this segment. The Company procures base oils from various suppliers scattered in different parts of the world. The Company tries to enter into long term supply contracts with regular suppliers and at times buys the base oils on spot basis."

42. First time adoption of Ind AS
42.1 Mandatory exceptions, optional exemptions
Transition to Ind AS

These are the Company's first financial statements prepared in accordance with Ind AS. For the year ended 31st March, 2017, the Company had prepared its financial statements in accordance with Companies (Accounting Standards) Rules, 2014, notified under Section 133 of the Companies Act, 2013 and other relevant provisions of the Act ('IGAAP'). The accounting policies set out in Note 2 have been applied in preparing these Financial Statements for the year ended 31st March, 2017 and the opening Ind AS Balance Sheet on the date of transition (i.e. 1st April, 2016). In preparing its Ind AS Balance Sheet as at 1st April, 2016 and in presenting the comparative information for the year ended 31st March, 2017, the Company has adjusted amounts previously reported in the Financial Statements prepared in accordance with IGAAP. This note explains the principal adjustments made by the Company in restating its Financial Statements prepared in accordance with IGAAP, and how the transition from IGAAP to Ind AS has impacted the Company financial position, financial performance and cash flows.

Exemptions and exceptions availed

In preparing the Financial Statement, the Company has availed the below mentioned optional exemptions and mandatory exceptions.

A. Exceptions :
1. Classification and measurement of financial assets

As permitted under Ind AS 101, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. In line with Ind AS 101, measurement of financial assets accounted at amortised cost has been done retrospectively except where the same is impracticable.

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018
2. Estimates

Ind AS estimates as at 1st April, 2016 are consistent with the estimates as at the same date made in conformity with IGAAP. Company has made estimates for following items in accordance with Ind AS at the date of transition as these were not required under IGAAP:

- investment in equity instruments carried at FVTOCI;
- impairment of financial assets based on expected credit loss model;
- determination of the discounted value for financial instruments carried at amortised cost.

B. Optional exemptions :
Property, plant and equipment and intangible assets

The Company has availed the exemption available under Ind AS 101 to continue the carrying value for all of its property, plant and equipment and intangible assets as recognised in the Financial Statements as at the date of transition to Ind AS, measured as per the IGAAP and use that as its deemed cost as at the date of transition (1st April, 2016).

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018**42.3 Notes to the reconciliations****1 Property, plant and equipment:**

Under previous GAAP, there was no requirement to present investment property separately and the same was included under tangible fixed assets (buildings) and measured at cost less accumulated depreciation. Under Ind AS, investment property is required to be presented separately in the balance sheet and depreciation is charged on it. Accordingly, the carrying amount of investment property as at 1st April, 2016 of ₹ 578.63 lakhs and as at 31st March, 2017 of ₹ 578.63 lakhs (before considering depreciation) under previous GAAP has been reclassified to a separate line item on the face of the balance sheet. There is no impact on the statement of profit and loss.

2 Fair valuation of investments:

Under previous GAAP, long term investments were measured at cost less diminution in the value which is other than temporary. Under Ind AS, these assets are classified as financial assets measured at fair value through profit or loss (FVOCI). On the date of transition to Ind AS, these financial assets have been measured at their fair value which is lower/higher than the cost as per previous GAAP, resulting in an decrease in the carrying amount by ₹ (4.69) lakhs as at 1st April, 2016 and increase by ₹ 4.01 lakhs as at 31st March, 2017.

3. Trade receivables:

Under Indian GAAP, the Company has created provision for impairment of receivables only in respect of specific amount for incurred losses. Under Ind AS, impairment allowance has been determined based on Expected Credit Loss (ECL) model. Due to ECL model, the Company impaired its trade receivable by ₹ 35.67 lakhs on 1st April, 2016 which has been eliminated against retained earnings. The impact of ₹ (6.59) lakhs for year ended on 31st March, 2017 has been recognised in the statement of profit and loss. Moreover, all trade receivables are now classified as current financial assets as per Ind AS.

4. Other Comprehensive income:

Under previous GAAP, there was no concept of other comprehensive income. Under Ind AS, specified items of income, expense, gains or losses are required to be presented in other comprehensive income.

5. Dividend (including dividend tax):

Under previous GAAP, proposed dividends including Dividend Distribution Tax (DDT) are recognised as a liability in the period to which they relate, irrespective of when they are declared. Under Ind AS, a proposed dividend is recognised as a liability in the period in which it is declared by the company (usually when approved by shareholders in a general meeting) or paid. In the case of the company, the declaration of dividend occurs after period end. Therefore, the short term provision of ₹ 243.84 lakhs (including DDT) for the year ended on 31st March, 2016 recorded for dividend has been derecognised against retained earnings on 1st April, 2016.

6. Employee benefits:

“Both under Indian GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. Under Indian GAAP, the entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements are to be recognised under other comprehensive income. Consequently, the tax effect of the same has also been recognised in other comprehensive income under Ind AS instead of profit or loss. On the date of transition, this change does not affect total equity.”

7. Deferred tax:

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP. In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognised in co-relation to the underlying transaction either in retained earnings or a separate component of equity. On the date of transition, the net impact on deferred tax assets is of ₹ 176.29 lakhs with corresponding impact on retained earnings. For the year ended 31st March, 2017, deferred tax expenses are reduced by ₹ (57.38) lakhs.

CONSOLIDATED NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2018

8. Revenue:

Under previous GAAP, revenue from sale of products was presented net of excise duty under revenue from operations. Whereas, under Ind AS, revenue from sale of products includes excise duty. The corresponding excise duty expense is presented on the face of the statement of profit and loss. The change does not affect total equity as at 1st April, 2016 and 31st March, 2017, profit before tax or total profit for the year ended 31st March, 2018.

9. As per Ind AS, cash and cash equivalents are shown as a separate item and other bank balances are shown separately.

10. As per Ind AS, certain assets and liabilities are reclassified as financial assets or liabilities based on the recognition criteria for financial asset or financial liability.

43. Previous year figures

The Group has reclassified previous year figures to conform to this year's classification.
